Processing projections (monthly volume, average ticket, max ticket)	_____
Chargeback / refund / dispute control procedures	In scaling-plan doc

C. Consistency Check Before Submitting

Underwriters decline or freeze applications for name/identity mismatches. Verify every document and the application form all use the **same legal entity names** and figures:

Check	Status
Entity name spelled "Sierra Integrative Holdings LLC" everywhere (not "Interactive")	FIXED in blueprints
Business name consistent — "Silver Zone Labs" vs "ETZ Bio" reconciled across all docs	OPEN — high-risk scaling plan still branded "ETZ Bio"
Volume figures on application match processing statements	_____
Business description on application matches actual product / website	_____
Owner name on ID matches name on bank & personal statements	_____

D. Outstanding Before Official Submission

#	Action	Owner
1	Complete & sign the Manufacturing Agreement (both parties)	_____
2	Confirm whose merchant statements BMO wants (parent vs. Sierra Integrative) and supply 2 months	_____
3	Reconcile "ETZ Bio" vs "Silver Zone Labs" naming across the package	_____
4	Final legibility / name-match QA on all statements & IDs	_____

Reminder: Keep all disclosures to the processor accurate and consistent with the actual business and its real processing activity. Submitting documents that don't reflect the true nature, ownership, or volume of the business is the fastest route to a decline, a later account freeze, or worse.
